

UROBOROS SHEET GLASS

Uroboros 90 COE Tested Compatible glass is available in six different textures of regular thickness glass (1/8" - 3mm), thin glass (1/16" - 1.6mm), frit and powder. Uroboros glass is formulated to be compatible with Bullseye line of fusible 90 glass. The 96 COE glass is formulated to be compatible with Spectrum Glass and most blowers' batches, available in black & clear only. Sheet size: 24" x 30" or 24" x 33" average wt 8.25 lbs. To convert price per sq ft into price per lb, divide by 1.6. Uroboros thin glass is the same size as Uroboros regular glass; 2 x the size of Bullseye thin glass.

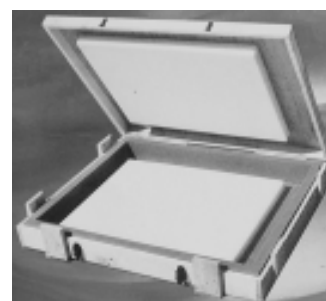

We can ship up to 4 FULL sheets/box to you in our PATENTED UPS/FEDEX box.

UROBOROS 90 COE STRINGERS & NOODLES

The new Uroboros noodles are 5mm wide, 1mm thick and 44.5mm (1.75") long. Very similar to a fettuccini noodle in appearance. This new shape can be used to create wonderful new imagery. They can be pre-formed using candles or torches, used for beads, stacked with stringers and fused to create murrini, overlapped, woven and tack fused to create glass baskets and used in many other ways that we haven't considered. They come in 10 colors plus a Mardi Gras pack that includes some of each color. Each tube contains 3 oz of noodles, approximately 14 pieces per tube.

Stringers are approximately 1mm in diameter and 44.5cm (18.5) long. This is a known element in the fusing market. They are larger in diameter than the stringers your are familiar with. We offer these in 10 colors and a Mardi Gras pack that contains some of each color. Also packed in 3 oz tubes containing approximately 60 stringers per tube. Stringers & noodles may be mixed for quantity discounts.
